Fight the Bite

When you do things right
Mosquitoes, ticks, and fleas won't bite

Cover your skin
So they can't get in
Wear colors that are light
Because when they're bright
They like to bite

If your skin is bare
Give it some care
Keep them away with adult supervision you may
Have an adult apply DEET spray

Take heed
Don't let them breed
Make fleas flee in style
Say good bye to West Nile
And when there's no time for Lyme
It will be the end of my rhyme
